

# Dicoll Wall Mount Kiosk

The Dicoll Wall Mount Kiosk is a touch screen enclosure manufactured to the highest standards. The core enclosure is prefabricated in 1.5 mm cold rolled steel and carefully assembled before it is lacquered to match customer specifications.

The kiosk has a sleek and timeless design making it the perfect choice for a range of applications from e-learning to point of information. It can be built either as a retail point of sale unit or alternatively as a station to dispense vouchers or printouts.

The Wall Mount Kiosk comes with a 17" LCD, Resistive touch screen and a standard ultra small form factor PC running Windows XP Pro.

By choosing the Dicoll Wall Mount Kiosk you are investing in a well proportioned and affordable interactive kiosk terminal, built with aesthetics in mind that is reliable, robust and suits installations where space is a consideration.

## Applications:

- e-learning
- Customer Orientation
- Multi-media Presentations
- Internet Browser
- Building Directional Finder
- Information Point
- Market Research Terminal
- Point of Sale

Should you require something completely bespoke, Dicoll also offer a full solution design service.
